

# HOSPITALITY PROJECT OVERVIEW:

## Grand Wailea Hotel Maui - Botero Lounge

### Project Summary

FoamOrder was tasked with replacing 60+ intricate cushions that made up the open-air Botero Lounge bar and restaurant in the lobby of BRE's Grand Wailea Hotel in Maui. Working with the head of procurement, the site manager, and the procurement and design team, FoamOrder took on-site measurements with template creation, created new foam cushions from reticulated, dry-fast foam, and created new cushion covers that would drain better and dry faster. The result was an improved design aesthetic and more comfortable cushions that dried properly and quickly.

### Customer Testimonial

"FoamOrder assisted us in solving a custom outdoor cushion challenge at the Grand Wailea Resort & Spa. They supported our team with on-site measurements and templating through cushion creation and product delivery. They brought great experience, depth of knowledge and expertise to the project. Most importantly FoamOrder is professional, extremely helpful, and easy to work with!"
